

# THE KANSAS CITY STAR.

January, 22, 2006

## **Kansas Capitol Report**

Officials of the Allen Group, a California developer, said people interested in a sneak preview of a proposed 1,300-acre freight hub southeast of Gardner can see it on the Internet at [www.dallashub.com](http://www.dallashub.com).

A similar rail and truck facility to receive trainloads of imported goods from West Coast ports is being constructed near Dallas.

The BNSF Railway Co. is behind the development and made a presentation last week to lawmakers from Johnson County. Skip Kalb Jr., the railroad's director of strategic development, said the project would generate more than \$100 million in local and state taxes over five years.
