## **Dallas Logistics Hub gains new tenant**

The Dallas Logistics Hub, a logistics park in South Dallas County developed by The Allen Group, announced this week that Bridge Terminal Transport has signed a lease and will be moving its container yard operations into a new facility in the park.

Bridge Terminal Transport is a marine container hauler that currently operates its container yard operations near Dallas Love Field Airport.

The Allen Group says construction is under way on the new Bridge Terminal Transport facility, which is expected to be operational by February 2009. The project will add 15 full-time jobs.
